

AMENDMENTS TO THE CLAIMS

1. (Currently Amended) A personal care composition for topical application comprising from about 0.001 weight % to about 10 weight % of the composition of a repeat sequence protein polymer and a physiologically acceptable carrier or excipient, wherein the repeat sequence protein polymer ~~formula~~ comprises SEQ ID NO. 19:

wherein:

~~T and T' each comprise an amino acid or amino acid sequence of from about 1 to about 100 amino acids, wherein the amino acid or amino acid sequence of T' is the same as or different from the amino acid or amino acid sequence of T;~~

~~y and y' are each an integer from 0 to 1, wherein the integer of y' is the same as or different from the integer of y;~~

~~A, A' and A'' are each individual repeating sequence units comprising from 3 to 30 amino acids, wherein the amino acid sequence of A' and the amino acid sequence of A'' are the same as or different from the amino acid sequence of A;~~

~~n, n', and n'' are integers of at least 2 and not more than 250;~~

~~x, x' and x'' are each 0 or an integer of at least 1, wherein each integer varies to provide for at least 30 amino acids in the A, A' and A'' individual repeating sequence units, and wherein the integer of x' and the integer of x'' are the same as or different from the integer of x with the further proviso that at least one of x, x', and x'' does not equal 0;~~

~~B and B' each comprise an amino acid sequence of from about 4 to about 50 amino acids, wherein the amino sequence of B' is the same as or different from the amino acid sequence of B;~~

~~b and b' are each an integer from 0 to 3, wherein the integer of b' is the same as or different from the integer of b;~~

~~i is an integer from 1 to 100, and~~

wherein the personal care composition is adapted to provide at least one benefit to the surface of the skin, hair, nails, or oral cavity to which the personal care composition is topically applied.

Claims 2.-12. Canceled

13. (Original) The composition of claim 1, wherein the repeat sequence protein polymer comprises from about 0.01 weight % to about 5 weight % of the composition.

14. (Original) The composition of claim 1, wherein the repeat sequence protein polymer comprises from about 0.01 weight % to about 1 weight % of the composition.

15. Canceled

16. (Original) The composition of claim 1, wherein the personal care composition comprises a hair care composition, a skin care composition, a nail care composition, a cosmetic composition, an oral care composition, or an over-the-counter pharmaceutical composition .

17. (Original) The composition of claim 16, wherein the personal care composition is a hair care composition selected from shampoo, conditioner, anti-dandruff treatment, styling aids, styling conditioner, hair repair or treatment serum, lotion, cream, pomade, and chemical treatments.

18. (Original) The composition of claim 16, wherein the personal care composition is a skin care composition selected from moisturizing body wash, body wash, antimicrobial cleanser, skin protectant cream, body lotion, facial cream, moisturizing cream, facial cleansing emulsion, surfactant-based facial cleanser, facial exfoliating gel, anti-acne treatment, facial toner, exfoliating cream, facial mask, after shave balm and sunscreen.

19. (Original) The composition of claim 16, wherein the personal care composition is a skin care composition comprises topically applied over-the-counter drugs comprising anti-fungal treatments, anti-acne treatments, skin protectants, and antiperspirants.
20. (Withdrawn) The composition of claim 16, wherein the personal care composition is a cosmetic composition comprising a makeup composition.
21. (Withdrawn) The composition of claim 16, wherein the personal care composition is a cosmetic composition selected from eye gel, high-melting point lipstick, lipstick, lip gloss, lip balm, mascara, eyeliner, pressed powder formulation and foundation.
22. (Withdrawn) The composition of claim 16, wherein the personal care composition is a nail care composition selected from nail enamel, cuticle treatment, nail polish, nail treatment, and polish remover.
23. (Withdrawn) The composition of claim 16, wherein the personal care composition is an oral care composition selected from toothpaste, mouth rinse, breath freshener, and whitening treatment
24. (Withdrawn) The composition of claim 17, wherein the hair composition is a shampoo selected from conditioning shampoo and anti-dandruff shampoo.
25. (Withdrawn) The composition of claim 17, wherein the hair care composition is a conditioner selected from leave-on hair conditioner, cream rinse and nourishing hair conditioner treatment.
26. (Withdrawn) The composition of claim 17, wherein the hair care composition is a chemical treatment selected from permanent waves, permanent and temporary relaxers, permanent hair dyes, semi-permanent hair dyes, and temporary hair dyes.
27. (Original) The composition of claim 18, wherein the skin care composition is a sunscreen selected from non-water-resistant sunscreen, very water-resistant sunscreen and water-in-silicone sunscreen.

28. (Withdrawn) The composition of claim 21, wherein the cosmetic composition is a mascara selected from non-waterproof mascara, waterproof mascara, volumizing mascara, lengthening mascara, curling mascara, anhydrous waterproof mascara, water-based mascara, and eyelash or eyebrow treatment.

29. (Withdrawn) The composition of claim 21, wherein the cosmetic composition is a pressed powder formulation selected from loose powder, blush, eye shadow, and bronzing powder.

30. (Withdrawn) The composition of claim 21, wherein the cosmetic composition is a foundation selected from water-in-oil foundation, water-in-silicone foundation, oil-in-water foundation, anhydrous makeup stick, and cream-to-powder foundation.

31. (Previously presented) The personal care composition as recited in claim 1, further comprising one or more compounds from the group of carriers, excipients, liposomes, active ingredients, biological or botanical products, humectants, emollients, surfactants, thickening agents, silicone components, organic sunscreens, preservatives, neutralizing agents, perfumes or pigments.

32. (Currently Amended) A process for making a personal care composition comprising combining from about 0.001 weight % to about 10 weight % an effective amount of a repeat sequence protein polymer comprising SEQ ID NO. 19 with a physiologically acceptable carrier or excipient to obtain a personal care composition wherein the personal care composition is adapted to provide at least one benefit to the surface of the skin, hair, nails, or oral cavity to which the personal care composition is topically applied.

33. (Withdrawn) The process according to claim 32, further comprising combining a compound from the group of carriers, excipients, liposomes, active ingredients, humectants, emollients, surfactants, thickening agents, silicone components, organic sunscreens, preservatives, neutralizing agents, perfumes or pigments to the composition.

34. Canceled
